APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the  
source. It is understood that the amount of water herein granted  
is only a temporary allowance and that the final water right  
obtained under this permit will be dependent upon the period of  
use and the average number of livestock served from the waters  
of this source. It is further understood that this right must  
allow for a reasonable lowering of the static water level at  
permittee's well due to any other ground water development in  
the area. The well shall be equipped with a 2-inch opening for  
measuring depth to water. If well is flowing, a valve must be  
installed and maintained to prevent waste. The State retains  
the right to regulate the use of the water herein granted at  
any and all times but does not take responsibility for the use  
of the Federal range.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0125 cubic feet per second, or sufficient water to water 400 head of cattle.

- Actual construction work shall begin on or before December 9, 1975
- Proof of commencement of work shall be filed before January 9, 1976
- Work must be prosecuted with reasonable diligence and be completed on or before December 9, 1976
- Proof of completion of work shall be filed before January 9, 1977
- Application of water to beneficial use shall be made on or before December 9, 1977
- Proof of the application of water to beneficial use shall be filed on or before January 9, 1978
- Map in support of proof of beneficial use shall be filed on or before \_\_\_\_\_
