
State of Nevada }
County of Nye } ss.

I, C.A. Liddell, being first duly sworn, depose and say that this map, consisting of one sheet, has, been correctly drawn to the designated scale from field notes of a survey made by me on the 9th day of April, 1952; that it truly and correctly represents the proposed location and extent of the works used to divert the water from the well in Nye County by George P. Brooks, for irrigation purposes. That the proposed point of diversion, the well, the approximate location of the diverting channel and the boundary of all land, showing by 40 acre subdivisions the areas proposed to be irrigated are fully and correctly designated thereon. There are, at present, no works of any kind on the property and none are contemplated. The size of the ditches can not be approximated until the amount of water the well produces is determined.

C.A. Liddell
State Water Right Surveyor.

Subscribed and sworn to before me this 10 day of April, 1952.
