(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point: Within the NW¼ of NE¼ Sec. 13; T32S,
R66E, Mt. Diablo B.L.&M. at a point S.86°47'20" E. 3908.9 ft. from Sec. Cor. 11,
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
12, 13, 14 which is at the northwest corner of Sec. 13.
it should be stated.

6. Place of use In the NW¼ of NE¼, Sec. 13, T32S, R66E, Mt. Diablo B.L.&M., more specifically
described as follows: Describe by legal subdivision, if on unsurveyed land it should be so stated.
Beginning at a point in the north line of said Sec. 13, bearing N 89°57'W along
said line 701.79 ft. from the northeast corner of said section, thence S.0°03'W 160.0
to true point of beginning; Thence continuing S.0°03'W 380.0'; thence S.89°57'E,
parallel with said north line of section 640.34' to the intersection with the east
line thereof; thence N.6°32'30"E along said east line 382.45'; thence N.89°57'
West, parallel with said north line of section 683.58 ft. to point of
beginning.

7. Use will begin about January 1st and end about December 31st, of each year.
Day and Month Day and Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and

specifications of your diversion or storage works.) Existing well at point of diversion mentioned
in (5) above, for which permit No. 28810 is in effect. 200' deep, 8" casing, no
perforations within 100' of surface. Pump installed in 4½" line submerged
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.
in water within the 8" casing, cemented into 14" soil pipe, enclosed at surface.
in concrete box 43" x 24" x 46" I.D. with 9" walls.

9. Estimated cost of works..... \$3,000
10. Estimated time required to construct works Completed and operated under No. 28810
11. Estimated time required to complete the application to beneficial use..... 6 months
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.
 Supporting map under permit 28810/26253 allowed according to letter from William J. Newman dated May 23, 1975. Water to be used for quasi-municipal uses in 48 existing motel units and 52 planned addition, 8 trailer locations, large restaurant, large bar, motel laundry, swimming pool, and for cooling water use. Present facility uses water thru meter for cooling of entire operation including casino. Annual allotment under No. 28810 is insufficient for the facilities that have been constructed and for the planned addition of 50 units. Total annual duty requested is 60 acre feet.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water granted herein at any and all times.

The total combined amount of water granted under this permit and Permit 28810 is limited to what the well covered under the two permits is capable of producing. If certificates of appropriation are issued under this permit and Permit 28810, the total combined amount of appropriation granted in said certificates shall not exceed what the well covered under the two permits is capable of producing.

The total combined duty of water under this permit and Permit 28810 shall not exceed 5.02 million gallons per annum.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 0.45..... cubic feet per second but not to exceed

5.02 million gallons annually.

Actual construction work shall begin on or before..... May 4, 1976

Proof of commencement of work shall be filed before..... June 4, 1976

Work must be prosecuted with reasonable diligence and be completed on or before..... May 4, 1976

Proof of completion of work shall be filed before..... June 4, 1976

Application of water to beneficial use shall be made on or before..... May 4, 1977

Proof of the application of water to beneficial use shall be filed on or before..... June 4, 1977

Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed..... APR 19 1976
 Completion of work filed..... APR 19 1976
 Proof of beneficial use filed..... APR 11 1977
 Cultural map filed.....
 Certificate No. 9203 Issued 2-17-78
