

APPLICATION FOR PERMIT  
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office..... AUG 4 1975  
Returned to applicant for correction..... AUG 25 1975  
Corrected application filed..... AUG 29 1975  
Map filed..... AUG 4 1975

The applicant..... Gardnerville Ranchos General Improvement District  
931 Mitch Drive....., of Gardnerville  
Street and No. or P.O. Box No. City or Town  
Nevada 89410  
State and Zip Code No.

....., hereby make..... application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) A general improvement district created by Douglas County Ordinance 146, effective April 23, 1965

1. The source of the proposed appropriation is underground  
Name of stream, lake or other source.

2. The amount of water applied for is 4.0.....second-feet  
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....acre-feet

3. The water to be used for Quasi-municipal  
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:
- (a) Irrigation (state number of acres to be irrigated).....
  - (b) Stockwater (state number and kinds of animals to be watered).....
  - (c) Other use (describe fully under "No. 12. Remarks").....
  - (d) Power:
    - (1) Horsepower developed.....
    - (2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point: within the SE 1/4 of the NE 1/4 of Section 15, T.12N., R.20E., MDM at a point from which the East 1/2 Corner of  
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land, it should be stated.  
said Section 15 bears S. 83° 02' 31" E., 412.88'.

6. Place of use See attachment  
Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year.  
Day and Month Day and Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Well, pump, electrical motor, and diesel standby motor.  
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

- 9. Estimated cost of works \$40,000.00
- 10. Estimated time required to construct works 1 year
- 11. Estimated time required to complete the application to beneficial use maximum allowable including time extensions.
- 12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This water is to be commingled with waters from permit nos. 24286, 22787, 22932, 27975, 27472, and 28689 by a common transmission system to serve 3,000 recorded units.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water granted herein at any and all times.

No perforations shall be put in the casing until after the well is completed and the log available for study. Perforations shall not start less than 100 feet from the surface unless the log shows a satisfactory confining formation nearer the surface.

The total combined duty of water under this permit and from all other sources, including Permits 22787, 24286, 27472, 28689, and 29290 shall not exceed 1095.0 million gallons per annum for 3,000 single family dwelling units.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 4.0 cubic feet per second but not to exceed 943.6 million gallons annually.

Actual construction work shall begin on or before August 25, 1977

Proof of commencement of work shall be filed before September 25, 1977

Work must be prosecuted with reasonable diligence and be completed on or before August 25, 1978

Proof of completion of work shall be filed before September 25, 1978

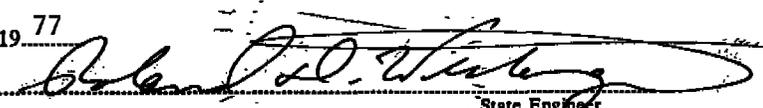

Application of water to beneficial use shall be made on or before August 25, 1981

Proof of the application of water to beneficial use shall be filed on or before September 25, 1981

Map in support of proof of beneficial use shall be filed on or before \_\_\_\_\_
