APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing prior rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use and submitted to the State Engineer as required. The meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. The State retains the right to regulate the use of the water herein granted at any and all times.

Further, this permit is issued for an amount of 65 gallons per minute but is conditioned on a total withdrawal of not to exceed 20 gallons per minute until further approval by the State Engineer as determined by the ruling and findings of the hearing in the matter dated May 3, 1976. This permit is also issued subject to said ruling and findings including provisions regarding individual domestic wells.

The combined total duty of water under this Permit and Permits 26493, 26494, 26497, 27571, 28281 and 29647 shall not exceed 1,460.0 million gallons per annum.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.1329 cubic feet per second but not to exceed 34.164 million gallons annually.

- Actual construction work shall begin on or before August 11, 1976
- Proof of commencement of work shall be filed before September 11, 1976
- Work must be prosecuted with reasonable diligence and be completed on or before August 11, 1977
- Proof of completion of work shall be filed before September 11, 1977
- Application of water to beneficial use shall be made on or before August 11, 1979
- Proof of the application of water to beneficial use shall be filed on or before September 11, 1979
- Map in support of proof of beneficial use shall be filed on or before September 11, 1979
