This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

No perforations shall be put in the casing until after the well is completed and the log available for study. Perforations shall not start less than 100 feet from the surface unless the log shows a satisfactory confining formation nearer the surface.

The place of use under this permit is limited to 148.3 acres of land within those portions of the NW1/4 SE1/4, E1/2 SW1/4, Section 6, N1/2 NW1/4, Section 7, T.12N., R.26E., M.D.B. & M., lying east of the High Ditch as shown on the supporting map for Application 30050.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.966 cubic feet per second but not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.
