..... APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

..... This permit is issued subject to all existing rights on the
 source. It is understood that the amount of water herein granted
 is only a temporary allowance and that the final water right
 obtained under this permit will be dependent upon the amount of
 water actually placed to beneficial use. It is also understood
 that this right must allow for a reasonable lowering of the
 static water level at permittee's well due to other ground water
 development in the area. A substantial weir or other type of
 measuring device must be installed and measurements of water use
 kept. The well shall be equipped with a 2-inch opening for
 measuring depth to water. If well is flowing, a valve must be
 installed and maintained to prevent waste. The State retains
 the right to regulate the use of the water herein granted at
 any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.25 cubic feet per second. but not to exceed a yearly duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources.

- Actual construction work shall begin on or before August 8, 1977
- Proof of commencement of work shall be filed before September 8, 1977
- Work must be prosecuted with reasonable diligence and be completed on or before August 8, 1978
- Proof of completion of work shall be filed before September 8, 1978
- Application of water to beneficial use shall be made on or before August 8, 1979
- Proof of the application of water to beneficial use shall be filed on or before September 8, 1979
- Map in support of proof of beneficial use shall be filed on or before September 8, 1979
