I, Ed. S. Giles, being first duly sworn, depose and say that this map consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me, February 26th 1934, that it truly and correctly represents the proposed location and extent of the works to be used to divert water from Unnamed Spring in Esmeralda County by J. J. Cooper, for Mining and Milling purposes. That the proposed point of diversion, the position of the diverting pipe line, the location of all other works which cross or connect with the proposed works and the boundaries of all lands, showing by forty acre subdivisions the location of the proposed point of diversion, development and place of use, are fully and correctly designated thereon.
