Note - the blueline on west side of this land showing waste water DITCH. is very irregular in size and fall. at the North end it is 7 Top. 3 bottom. 2 deep. for 240 down stream. then 2½ Top 2 bottom for 257 More. and finally at south end is only 2 plow furrow. the fall being so uneven that I was not able to obtain it. but is barely enough for water to flow
