

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office MAR 30 1977

Returned to applicant for correction APR 19 1977

Corrected application filed APR 29 1977

Map filed APR 29 1977

The applicant Charles K. and D. Jean Hollis (husband and wife)

P. O. Box 74A, of Pahrump

Street and No. or P.O. Box No.

City or Town

Nevada 89041, hereby make application for permission to appropriate the public

State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is Underground (Pahrump Valley Artesian Basin).

Name of stream, lake or other source.

2. The amount of water applied for is 0.02 second-feet

One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet acre-feet

3. The water to be used for Quasi-Municipal and Domestic

Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated)

(b) Stockwater (state number and kinds of animals to be watered)

(c) Other use (describe fully under "No. 12. Remarks")

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream

5. The water is to be diverted from its source at the following point: within the SE 1/4, SE 1/4, Section

15, T. 20S., R. 53E., M.D.B. & M. from which the Southeast Corner of

Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,

said Section 15 bears South 40 degrees - 12 minutes - 46 seconds

it should be stated. East a distance of 984.42 feet.

6. Place of use SE 1/4, SE 1/4 Section 15, T. 20S., R. 53E., M.D.B. & M.

Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year.

Day and Month

Day and Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and

specifications of your diversion or storage works.) an existing well with motor and pump, 30" Diam. x 6' - 6" vertical steel pressure tank along with existing 3/4" and 1 1/2" pipelines will be used until a

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

larger pump, pipelines, larger water storage tank, etc. will be

needed.

- 9. Estimated cost of works \$5,000.00
- 10. Estimated time required to construct works None, for present works, to 5 years for balance of works.
- 11. Estimated time required to complete the application to beneficial use 5 years
- 12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use. As shown on the map, the ultimate water required will serve 19 trailer spaces and 8 mobile home units with landscaping; one beauty parlor along with four other small shops which will require water for some landscaping as well as inside use; 1 swimming pool with landscaping; an office with landscaping; one garage; one auto parts house and one wash and bath house within the trailer court. The beauty parlor will probably require more water than any one of the other 4 shops. The mobile homes being in larger lots or spaces may require more water than any of the trailer spaces. There are 37 units in all to be served.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

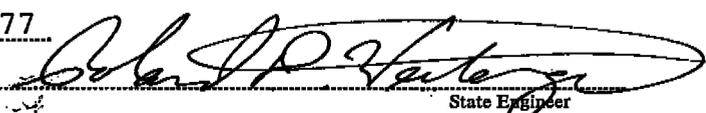

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.2 cubic feet per second, but not to exceed 1.934 million gallons annually.

- Actual construction work shall begin on or before October 17, 1977
- Proof of commencement of work shall be filed before November 17, 1977
- Work must be prosecuted with reasonable diligence and be completed on or before October 17, 1978
- Proof of completion of work shall be filed before November 17, 1978
- Application of water to beneficial use shall be made on or before October 17, 1981
- Proof of the application of water to beneficial use shall be filed on or before November 17, 1981
- Map in support of proof of beneficial use shall be filed on or before _____

Commencement of work filed NOV 25 1977
 Completion of work filed NOV 29 1978
