THE STATE OF NEVADA

PROOF OF APPROPRIATION OF WATER FOR STOCK WATERING PURPOSES

01637

From Spring Valley Side, Connors Spring
Name of natural water course

Through Pipe One hundred feet into troughs
Name of ditch, pipe line, etc.

One hundred feet in length, *the undersigned, being first duly sworn, deposes and says that the statements herein contained relative to the appropriation of water by* Adams-McGill Company *are full and correct to the best of his knowledge and belief.*

W.N.McGill who is Vice President of the Adams-McGill Company
If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant
and acting in their behalf

(1) Name of claimant Adams-McGill Company

Address Ely, *County of* White Pine,

State of Nevada

(2) The means of diversion employed is iron pipe one hundred feet in length
Dam and ditch, pipe line, flume, etc.

(3) The water is impounded in water troughs 100 feet long
Troughs, reservoirs, tanks, etc.

(4) The construction of the ditch or other works was begun 1900

and completed 1900

(5) The nature of the claimant's title to the land upon which the works are located is by purchase. Title being had originally from the State of Nevada

(6) The claimant's water right ~~was~~ *(was not) recorded in the office of the County Recorder of* _____ *County, at Page* _____ *of Book* _____ *of* _____

(7) The approximate number of animals watered by the claimant during the first year was 2000 sheep *and said watering was conducted for an approximate period of* twenty *days during each of the following months* March, April, May, September, October and November During June, July, and August these animals were watered each day

(8) The approximate number of animals watered by claimant in subsequent years was as follows:

The animals watered prior to 1900 were cattle being watered by parties from whom Adams-McGill Company acquired title.

(9) The amount of water which it has been necessary to divert for the said purpose has been one-tenth *cubic feet per second.* which is the entire flow of spring

40 miners inches equals 1 cubic foot per second

(10) The water is diverted from its source at _____ *feet from*

True bearing to nearest 5 minutes distance

the NE ¼ of SW ¼ ~~corner~~ *of Section* 14, *T.* 13 N, *R.* 65 *E., Mount Diablo Base and Meridian.*

NOTE—Information under (10) must invariably be given when a public corner is within 6 miles, unless the State Engineer consents to some other form of description.

(11) The works are located at upon the above described subdivision

Describe as within a 40-acre subdivision of public survey or by a tie in same manner as under (10)

Remarks:

The Adams-McGill Company have used the water of this spring for watering stock since 1900, when wooden troughs were constructed and used to impound water for sheep. In the year 1913 the wooden troughs were discarded and steel troughs used instead prior to 1900, Mrs. Connors cattle used the water from this spring
