STATE ENGINEER'S OFFICE

THE STATE OF NEVADA

PROOF OF APPROPRIATION OF WATER FOR STOCK WATERING PURPOSES

From KNOTT CREEK
Name of natural water course

Through Reservoir
Name of ditch, pipe line, etc.

F. E. BUSH and F. H. Murphey, the undersigned, being first duly sworn, deposes and says that the statements herein contained relative to the appropriation of water by F. E. BUSH and F. H. MURPHEY are full and correct to the best of his knowledge and belief.

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant

(1) Name of claimant F. E. BUSH and F. H. MURPHEY

Address CEDARVILLE, County of MODOC,

State of CALIFORNIA

(2) The means of diversion employed is Dam
Dam and ditch, pipe line, flume, etc.

(3) The water is impounded in Reservoir
Troughs, reservoirs, tanks, etc.

(4) The construction of the ditch or other works was begun Prior to 1890 and completed Prior to 1890

(5) The nature of the claimant's title to the land upon which the works are located is Public and patented lands

(6) The claimant's water right ~~was~~ (was not) recorded in the office of the County Recorder of ..... County, at Page ..... of Book ..... of .....

(7) The approximate number of animals watered by the claimant during the first year was prior to 1890 and said watering was conducted for an approximate period of ..... days during each of the following months 6000 sheep and 1000 cattle portions of the time throughout the year.

(8) The approximate number of animals watered by claimant in subsequent years was as follows:

(9) The amount of water which it has been necessary to divert for the said purpose has been one tenth cubic feet per second.

40 miners inches equals 1 cubic foot per second

(10) The water is diverted from its source at N. 20° E., 21,550 feet from

True bearing to nearest 5 minutes distance

the southwest corner of Section 30, T. 43 N., R. 28 E., Mount Diablo Base and Meridian.

NOTE—Information under (10) must invariably be given when a public corner is within 6 miles, unless the State Engineer consents to some other form of description.

(11) The works are located at Approximately the NE¼ NW¼, SE¼ NW¼, NW¼ NE¼,

Describe as within a 40-acre subdivision of public survey or by a tie in same manner as under (10)

Remarks: SW¼ NE¼, NW¼ SE¼ and NE¼ SW¼ Sec. 8, T. 43 N., R. 28 E. The location is given as approximate because no land corners were found closer than the tie shown.

Remarks: The old dam was replaced in 1916 by the present dam which is 12 feet high and consists of a masonry wall on the upstream side and rock on the downstream side. The reservoir created by the dam covers an area of approximately 80 acres of land and has an average depth of seven or eight feet, the capacity, being in the neighborhood of 600 acre feet. Water from the reservoir is also used for irrigation purposes, but this proof is only intended to cover the claim for stock watering.

F. H. Murphey
