Basis of Bearings-Solar Observation

STATE OF CALIFORNIA }
COUNTY OF MODOC } S.S.

I, Robert W. Wickenden, being first duly sworn, depose and say that this map consisting of 1 sheet only, has been correctly drawn to the designated scale from field notes of a survey made by me between the 28th day of October and the 31st day of October, 1968; that it truly and correctly represents the proposed location and extent of the works used to divert water from TULEDAD CREEK, in Washoe County, Nevada, by Melvin A. Stevenson for irrigation purposes. That the proposed point of diversion, the approximate location and size of the diverting channel, all reservoirs or basins, the location and names of all other works which will cross or connect with the proposed works, and the boundary of all lands, showing by 40-acre subdivisions the areas proposed to be irrigated, are fully and correctly designated thereon.

Robert W. Wickenden
State Water Right Surveyor

Subscribed and sworn to before me this 10th day of June 1971.
