Attention: Mr. Robert Thayer

Subject: Application For Public Waters At Lee Canyon
Youth Camp. Serial No. 34824

Dear Mr. Morros:

With reference to Mr. Thayer's phone call of February 10, 1986, we respectfully request your office continue to process the subject application and issue a permit to Clark County.

Mr. Jim Scholl filed the amended application, which is attached, in January, 1985. We wish to have that application approved without modification. The well which is the source of this application is strictly for domestic use and is a backup water supply for our normal surface water source during late summer months.

I have provided below some use figures which will aid you in verifying our requested amount of water.

Existing Fixture Count

- 17 - Water Closets
- 28 - Lavatories
- 2 - Urinals
- 4 - Washing Machines
- 19 - Showers
- 3 - Bath Tubs
- 16 - Hose Bibs

COMMISSIONERS

Thalia M. Dondero, Chairman • Manuel J. Cortez, Vice-Chairman
Jay Bingham, Paul J. Christensen, Karen Hayes, William U. Pearson, Bruce L. Woodbury
Donald L. "Pat" Shelmy, County Manager

The annual use figures for 1984 were 11,941 person days and 1985 8,089 person days. The reduction in 1985 was due to the camp being closed for seven weeks in the winter when the water system was frozen.

Your consideration of this matter is appreciated.

Sincerely,

Glenn Trowbridge
Director of Parks and Recreation

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights and is further subject to revocation if and when water can be furnished by an entity such as a water district or a municipality engaged in furnishing water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. It is understood that this right must allow for a reasonable lowering of the static water level. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued for the uses as stated on the letter date February 20, 1986 on file under this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.05 cubic feet per second, but not to exceed 1.0 million gallons annually.

Actual construction work shall begin on or before.....

Proof of commencement of work shall be filed before.....

Work must be prosecuted with reasonable diligence and be completed on or before September 25, 1988

Proof of completion of work shall be filed before..... October 25, 1988

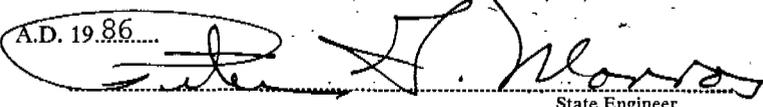

Application of water to beneficial use shall be made on or before..... September 25, 1990

Proof of the application of water to beneficial use shall be filed on or before..... October 25, 1990
