.....APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

.....This permit is issued subject to existing rights and is further subject to
revocation if and when water can be furnished by an entity such as a water
district or a municipality engaged in furnishing water. A totalizing meter must
be installed in the discharge pipeline, near the point of diversion, and accu-
rate measurements must be kept of water placed to beneficial use. It is under-
stood that this right must allow for a reasonable lowering of the static water
level. The well shall be equipped with a 2-inch opening for measuring depth to
water. If the well is flowing, a valve must be installed and maintained to
prevent waste. This source is located within an area designated by the State
Engineer pursuant to NRS 534.030. The State retains the right to regulate the
use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....0.05.....cubic feet per second, but not to exceed
11.8 million gallons annually.
