I, Alan Means, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me, or under my direct supervision, on the 23rd day of January, 1976, that it truly and correctly represents the proposed location and extent of the works used to divert water from an underground source in Washoe County, by BJB Investment Company for quasi-municipal and domestic purposes. That the former point of diversion, the new point of diversion, the approximate location and size of the diverting channel, all reservoirs or basins, the location and names of all other works which will cross or connect with the proposed works, and the boundary of all lands, showing by 40 acre subdivisions the areas proposed for water usage, are fully and correctly designated thereon.
