

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

MAR 30 1978

Date of filing in State Engineer's Office.....

Returned to applicant for correction.....

Corrected application filed..... APR 28 1978

Map filed..... APR 28 1978

The applicant..... Westcoast Oil and Gas Corp.
395 Freeport Boulevard....., of Sparks, Nevada
Street and No. or P.O. Box No. City or Town
Nevada 89431....., hereby makes application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)
New Jersey, 1961

1. The source of the proposed appropriation is..... industrial effluent
Name of stream, lake or other source.

2. The amount of water applied for is..... 2785 (125 gpm)..... second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet..... acre-feet

3. The water to be used for..... mining, milling and domestic purposes
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated).....

(b) Stockwater (state number and kinds of animals to be watered).....

(c) Other use (describe fully under "No. 12. Remarks").....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point: within the NE 1/4 NW 1/4 sec. 33, T20N, R22E, MDB&M, at a point from which the W 1/4 corner of said
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
section 33 bears S 48° 32' 00" W a distance of 2500.54 feet.
it should be stated.

6. Place of use..... within the E 1/2, Sec. 26, Sec. 25, and the N 1/2 Sec. 36,
Describe by legal subdivision, if on unsurveyed land it should be so stated.
all being within T19N, R22E, MDB&M.

7. Use will begin about..... January 1..... and end about..... December 31....., of each year.
Day and Month Day and Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.)..... water will be pumped from the Tracy Power Plant and piped via a four inch, or possibly three inch
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.
pipeline to the place of use.

- 9. Estimated cost of works..... \$300,000.00
- 10. Estimated time required to construct works..... two years
- 11. Estimated time required to complete the application to beneficial use..... three years
- 12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. A totalizing meter must be installed and maintained at the point of diversion to facilitate measurement of water. The totalizing meter must be installed prior to filing the Proof of Completion of Work. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit is further issued for and limited to industrial effluent that would otherwise be evaporated and is issued on the condition the diversion of the water appropriated under this permit will not deminish return flow to the Truckee River. The permit granted herein carries with it no provision or guarantee for the continuous use or availability of water since the source is industrial effluent.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.2785 cubic feet per second, but not to exceed 52.56 million gallons annually.

- Actual construction work shall begin on or before..... February 24, 1979
- Proof of commencement of work shall be filed before..... March 24, 1979
- Work must be prosecuted with reasonable diligence and be completed on or before..... February 24, 1980
- Proof of completion of work shall be filed before..... March 24, 1980
- Application of water to beneficial use shall be made on or before..... February 24, 1981
- Proof of the application of water to beneficial use shall be filed on or before..... March 24, 1981
- Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed..... NOV 1 1979
 Completion of work filed..... FEB 7 1980
 Proof of beneficial use filed..... 3-23-87
 Cultural map filed.....
 Certificate No. 12920 Issued AUG 05 1991
 Recorded..... Bk..... Page.....
 County Recorder

IN TESTIMONY WHEREOF, I ROLAND D. WESTERGARD State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 24th day of AUGUST,

A.D. 19 78

[Signature]
State Engineer

ABANDONED
FILE NO. 5814
DATE JAN 10 2008

Westcoast Oil and Gas Corp. intends to pump industrial effluent from the Sierra Pacific Power Company Tracy Power Plant located within Storey County, Nevada. The industrial effluent is water for which the Sierra Pacific Power Company has existing and valid permitted water rights, but for environmental reasons cannot be returned to the Truckee River after it has been used by the Sierra Pacific Power Company for industrial purposes. The industrial effluent will be pumped approximately 42,000 feet to the Gooseberry Mine where it will be used for milling, mining and domestic purposes. At this date it is anticipated that a single pumping station at the Tracy Power Plant will be sufficient to deliver the required volume of water.

Annual consumption is anticipated to be 125 gallons per minute, 24 hours a day, 365 days per year. The annual duty will therefore be 52.56 million gallons, or 161.312 acre feet per year.

The Sierra Pacific Power Company and Westcoast Oil and Gas Corp. will enter into an agreement for the purchase of the industrial effluent. A copy of that Agreement will be submitted, if requested, after it has been formally executed.
