 State Engineer

WITHDRAWN BY APPLICANT AUG 20 1997

Exhibit "A"

The exact number of units to be served is unknown at this time. The annual consumption is planned to be 108.03 acre feet. Water pursuant to this application is intended to be commingled with other ground water rights, as well as with water delivered to Applicant by the Sierra Pacific Power Company.

This application is intended to be in conformance with the agreement of April 21, 1978, entered into between the Nevada State Engineer and Leareno Development, Inc.

This application seeks to expand the service area by placing therein certain lands which previously were located in Washoe County, and annexed to the City on May 8, 1978. The applicant clearly understands that the increased area will not authorize it to utilize more water than that set forth in the April 21, 1978 agreement, plus that water supplied it by the Sierra Pacific Power Company.
