

APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office..... JUN 19 1978
Returned to applicant for correction..... AUG 7 1978
Corrected application filed..... AUG 16 1978
Map filed..... AUG 16 1978

The applicant..... U.S.D.A. Forest Service, Lake Tahoe Basin Management Unit
P. O. Box 8465....., of South Lake Tahoe, Ca. 95731
Street and No. or P.O. Box No. City or Town

....., hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is..... underground
Name of stream, lake or other source.

2. The amount of water applied for is..... two (2)..... second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet..... acre-feet

3. The water to be used for..... Recreation
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:
(a) Irrigation (state number of acres to be irrigated).....
(b) Stockwater (state number and kinds of animals to be watered).....
(c) Other use (describe fully under "No. 12. Remarks").....
(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point:..... in the SW 1/4 of SW 1/4 of Sec. 31,
Township 13 North, Range 19 East, M.D.B.&M., which bears N. 41° 00' East from
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
the SW corner of Section 31 a distance of 1350 ± ft. T 13N, R 19E, M.D.B.&M.
it should be stated.

6. Place of use..... Section 31, T 13N, R 19E, M.D.B. &M.
Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about..... January 1..... and end about..... December 31....., of each year.
Day and Month Day and Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.)..... Water is to be pumped into a holding tank, then through pipes to place of use.
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

- 9. Estimated cost of works.....\$250,000.....
- 10. Estimated time required to construct works.....180 days.....
- 11. Estimated time required to complete the application to beneficial use.....1 year.....
- 12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Main use will be snowmaking. Because the total amount so; used varies with the weather, annual consumptive use (which is approximately the amount evaporated) is unknown. Maximum total hourly use is two second feet. Summer use for irrigation will be less. Water used in snowmaking and irrigation returns to Daggett Creek watershed. Water also will be used at a restaurant building with Applicant U.S.D.A. Forest Service approximately 200 person capacity.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The use under this permit is strictly limited to snowmaking during the appropriate winter months and to service a restaurant on a year around basis.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.5 cubic feet per second, but not to exceed 39.5 million gallons annually.

- Actual construction work shall begin on or before.....December 7, 1979
- Proof of commencement of work shall be filed before.....January 7, 1980
- Work must be prosecuted with reasonable diligence and be completed on or before.....December 7, 1980
- Proof of completion of work shall be filed before.....January 7, 1981
- Application of water to beneficial use shall be made on or before.....December 7, 1982
- Proof of the application of water to beneficial use shall be filed on or before.....January 7, 1983
- Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed.....DEC 7 1979
 Completion of work filed.....JUL 15 1980
 Proof of beneficial use filed.....NOV 22 1982
 Cultural map filed.....
 Certificate No. 10531 Issued.....DEC 13 1982
