IN TESTIMONY WHEREOF, I, WILLIAM J. NEWMAN  
 State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 6th day of JULY  
 A.D. 1979  
 William J. Newman  
 State Engineer

The intent of this document is to permit the applicant to draw water under existing rights directly from the Truckee River via a pipeline rather than through the Highland and Hogan ditches. This water is to be combined with water from existing underground permit Nos. 32336 and 32337 to serve the proposed service area, and will amount to a reduction in use of these existing surface and underground rights.
