 APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, manner, and place of use of a portion of the waters of the Truckee River as heretofore granted under Claim 102, Truckee River Final Decree is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein.

A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use.

Those portions of Sections 14 and 15, T.19N., R.18E., lying south of the southerly right-of-way of U.S. I-80 are excluded from the place of use allowed under this permit.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.62 cubic feet per second, but not to exceed 85.0 acre-feet annually as decreed.

Actual construction work shall begin on or before January 6, 1980
 Proof of commencement of work shall be filed before February 6, 1980
 Work must be prosecuted with reasonable diligence and be completed on or before January 6, 1981
 Proof of completion of work shall be filed before February 6, 1981
 Application of water to beneficial use shall be made on or before January 6, 1984
 Proof of the application of water to beneficial use shall be filed on or before February 6, 1984
 Map in support of proof of beneficial use shall be filed on or before February 6, 1984

Commencement of work filed JAN 27 1981
 Completion of work filed JAN 27 1982
 Proof of beneficial use filed
 Cultural map filed
 Certificate No. Issued

IN TESTIMONY WHEREOF, I WILLIAM J. NEWMAN,
 State Engineer of Nevada, have hereunto set my hand and the seal of
 my office, this 6th day of JULY

A.D. 19 79
William J. Newman
 State Engineer

The intent of this document is to permit the applicant to draw water under existing rights directly from the Truckee River via a pipeline rather than through the Highland and Hogan ditches. This water is to be combined with water from existing underground permit Nos. 32336 and 32337 to serve the proposed service area, and will amount to a reduction in use of these existing surface and underground rights.
