APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the Proof of Completion of Work is filed.

The total combined duty of water under this permit and Permits 22884, 36871, and 36872 shall not exceed 679.4 million gallons annually.

The well under this permit is primarily for ground water quality monitoring and if necessary, for pumpage into an existing tailings pond when the contaminated water will be recirculated for additional treatment.

The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal, and local agencies.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second, but not to exceed 235.9 million gallons annually.

Actual construction work shall begin on or before.....N/A.....

Proof of commencement of work shall be filed before.....N/A.....

Work must be prosecuted with reasonable diligence and be completed on or before November 12, 1984.....

Proof of completion of work shall be filed before.....December 12, 1984.....

Application of water to beneficial use shall be made on or before.....November 12, 1987.....

Proof of the application of water to beneficial use shall be filed on or before.....December 12, 1987.....

Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed.....  
Completion of work filed..... JAN 02 1985  
Proof of beneficial use filed..... JAN 13 1993  
Cultural map filed.....  
Certificate No. 13749 Issued..... SEP 17 1993
