

APPLICATION FOR PERMIT  
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office..... JAN 3 1 1980

Returned to applicant for correction.....

Corrected application filed.....

Map filed..... JAN 3 1 1980

The applicant Phillips Petroleum Company

P.O. Box 6256, of Reno,  
Street and No. or P.O. Box No. City or Town

Nevada 89513, hereby make<sup>s</sup> application for permission to appropriate the public  
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.).....

Incorporated June 13, 1917. Delaware.

1. The source of the proposed appropriation is underground  
Name of stream, lake or other source.

2. The amount of water applied for is ten second-feet  
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet..... acre-feet

3. The water to be used for industrial and domestic  
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:  
(a) Irrigation (state number of acres to be irrigated).....

(b) Stockwater (state number and kinds of animals to be watered).....

(c) Other use (describe fully under "No. 12. Remarks") industrial and domestic

(d) Power:  
(1) Horsepower developed.....  
(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point: SW¼ NE¼ Section 6, T17N-R20E,  
Washoe County, Nevada. The well will be 1998.5 feet on a bearing of S 11° 59' E  
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land, it should be stated.

6. Place of use Section 6, T17N-R20E  
Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about January 1st and end about December 31st, of each year.  
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Drill a well of 8-inch diameter or larger to a depth of 8000 feet or less. Steam and water will be diverted from the well through pipes.  
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

- 9. Estimated cost of works \$700,000
- 10. Estimated time required to construct works One year to drill the well. Piping to be installed just prior to application of water to beneficial use.
- 11. Estimated time required to complete the application to beneficial use ten years.
- 12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Well to develop geothermal resources

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. If the well is flowing, a valve must be installed and maintained to prevent waste. Accurate measurements must be kept of water placed to beneficial use. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

There are to be no perforations in the well for at least the first 1,500 feet. The well is to be cemented from the 1,500 foot level to the surface to protect fresh water zones.

This permit is further issued subject to the condition that the power or energy generated by the beneficial use of this water or steam is subject to recapture and use within the boundaries of the State of Nevada when the need arises.

This permit is further issued subject to the condition that only geothermal fluids are to be diverted and used beneficially for heating purposes only and fresh, cold water aquifers are not to be diverted.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 10.0 cubic feet per second, but not to exceed a consumptive use of 722.7 acre-feet annually.

Actual construction work shall begin on or before April 30, 1981

Proof of commencement of work shall be filed before May 30, 1981

Work must be prosecuted with reasonable diligence and be completed on or before April 30, 1982

Proof of completion of work shall be filed before May 30, 1982

Application of water to beneficial use shall be made on or before April 30, 1987

Proof of the application of water to beneficial use shall be filed on or before May 30, 1987

Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed  
 Completion of work filed  
 Proof of beneficial use filed  
 Cultural map filed  
 Certificate No. Issued

IN TESTIMONY WHEREOF, I, WILLIAM J. NEWMAN  
 State Engineer of Nevada, have hereunto set my hand and the seal of  
 my office, this 30th day of OCTOBER

A.D. 19 80

*William J. Newman*  
 State Engineer
