GENERAL INFORMATION—Pumping Test, Quality of Water, Etc.

There was not a test made on this well by Nevada Pump & Line. They pulled the turbine out of one well & put in the new one.
I figured from the cutting while drilling that it would produce around 3000 gpm, — with the information I acquired its producing about 2900 gpm. — a very good gravel packed well.

WELL DRILLER'S STATEMENT

This well was drilled under my jurisdiction and the above information is true to my best information and belief.
