APPROVAL..... OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the Proof of Completion of Work is filed.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... .032..... cubic feet per second, but not to exceed 23.52 acre-feet annually.

Actual construction work shall begin on or before..... N/A
 Proof of commencement of work shall be filed before..... N/A
 Work must be prosecuted with reasonable diligence and be completed on or before..... July 9, 1982
 Proof of completion of work shall be filed before..... August 9, 1982
 Application of water to beneficial use shall be made on or before..... July 9, 1984
 Proof of the application of water to beneficial use shall be filed on or before..... August 9, 1984
 Map in support of proof of beneficial use shall be filed on or before.....
