We then intend to forfeit .373 c.f.s. of water under existing Permit No. 12791 (134 lots at 1800 gpd each = 0.373 c.f.s.) to allow the future lot owners to drill their own wells without having any increase impact on the groundwater basin. Annual consumptive use based on 1800 gpd per lot = 270 ac. ft. per year. A more realistic use figure of 800 gpd per lot amounts to 120 ac. ft. per year actually used although 270 ac. ft. will be forfeited under this application.....
