I, Lenard D. Smith, being first duly sworn, depose and say that this map, consisting of one sheet has been correctly drawn to the designated scale from field notes of a survey made by me between October 23, 1998 and December 18, 1998; that it truly and correctly represents the proposed locations and extent of works used to divert the water from underground in Lincoln County, Nevada, by Kenneth D. & Norma D. Lee, for irrigation purposes. That the point of diversion, the approximate location and size of the diversion channel or other conduit, all reservoirs or basins, the names of all other works which will cross or connect with the works and the boundary of all lands, showing by 40 acre subdivisions the areas served, are fully and correctly designated hereon and/or on the map to accompany proof of appropriation for irrigation under Permit 11973 Certificate 4462 and under Permit 49320, Cert. 14827.

Also that this map to show for Proof of Beneficial Use the proposed and new place of use for irrigation purposes under said permits (11973 & 49320). That the points of diversion, the location, size of the diverting channel or other conduit, location and description of all measuring devices, the location and extent of the lands owned or controlled by the applicant upon which water applied for under permits 11973 and 49320 are used, together with the area and kind of culture in each 40-acre subdivision, and the names of all other works or streams which are crossed by or connected with said works are fully and correctly designated for the new and proposed place of use thereon, the remainder shown on the maps iterated above.
