STATE OF NEVADA } SS
COUNTY OF LYON }

I, Rick P. Christain, being first duly sworn, do depose and say that this map has been correctly drawn to the designated scale from field notes of a survey made under my direction on December 14, 2000, that it truly and correctly represents the extent and location of proposed works to Appropiate Water for irrigation purposes. That the proposed point of diversion, from an above ground source, in Mineral County, the approximate location and size of the diverting channel or other conduit, all reserviors or basins, the location and names of all other works, and the boundary of all lands, showing by 40-acre subdivisions the areas proposed to be served, are fully and correctly designated, by Samuel Andrisani, in Mineral County.
