

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office JAN 5 1981

Returned to applicant for correction

Corrected application filed

Map filed JAN 5 1981 under 43050

The applicant SUNOCO ENERGY DEVELOPMENT COMPANY

12700 Park Central Pl., Box 9, Suite 1500 of Dallas Street and No. or P.O. Box No. City or Town

Texas (75251) hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

Incorporated January 2, 1975

in the State of Delaware

1. The source of the proposed appropriation is Underground Well Lamb 2 (12-18) Name of stream, lake or other source.

2. The amount of water applied for is 3.25 second-feet One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet acre-feet

3. The water to be used for Industrial Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated)

(b) Stockwater (state number and kinds of animals to be watered)

(c) Other use (describe fully under "No. 12. Remarks")

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream

5. The water is to be diverted from its source at the following point: NW 1/4 NW 1/4 Section 18, T24N, R37E, MDM, or at a point from which the NE corner of Section 6, T24N, R37E, MDM bears N 22°59'43" E a distance of 12,690.1 feet it should be stated.

6. Place of use Section 32, T25N, R37E, MDM, Sections 5, 6, 7, 8, 17, 18, 19, 20, 21, 4, T24N, R37E, MDM, Sections 12, 13, 24, T24N, R36E, MDM

7. Use will begin about January 1 and end about December 31, of each year. Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Drill well to approximately 6000 feet, install casing and cement back to surface to protect fresh water zones. Hot water or steam will flow through pipeline to electric plant.

- 9. Estimated cost of works \$500,000
- 10. Estimated time required to construct works Three Years
If well completed, describe works.
- 11. Estimated time required to complete the application to beneficial use Ten Years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

This application is for a geothermal well with a production of 2.1 million gallons per day. The withdrawal will be 2352 acre feet per year; however, the high temperature water would be flashed with the net effect of 210,000 gallons per day being beneficially used and the remaining water returned to the reservoir so only 235 acre feet per year is actually used. This application is commingled with the other applications.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. If the well is flowing, a valve must be installed and maintained to prevent waste. Accurate measurements must be kept of water placed to beneficial use. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

There are to be no perforations in the well for at least the first 1,500 feet. The well is to be cemented from the production levels to the surface to protect fresh water zones.

This permit is further issued subject to the condition that the power or energy generated by the beneficial use of this water or steam is subject to recapture and use within the boundaries of the State of Nevada when the need arises.

This permit is further issued subject to the condition that only geothermal fluids are to be diverted and used beneficially for heating purposes only and fresh, cold water aquifers are not to be diverted.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.25 cubic feet per second, but not to exceed a consumptive use of 235 acre-feet annually.

Actual construction work shall begin on or before N/A

Proof of commencement of work shall be filed before N/A

Work must be prosecuted with reasonable diligence and be completed on or before August 24, 1982

Proof of completion of work shall be filed before September 24, 1982

Application of water to beneficial use shall be made on or before August 24, 1984

Proof of the application of water to beneficial use shall be filed on or before September 24, 1984

Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed.....
Completion of work filed..... SEP 04 1981
Proof of beneficial use filed.....
Cultural map filed.....
Certificate No. Issued.....
A.D. 1981

IN TESTIMONY WHEREOF, I PETER G. MORROS
State Engineer of Nevada, have hereunto set my hand and the seal of
my office, this 24th day of AUGUST
