

APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office MAY 28 1981

Returned to applicant for correction _____

Corrected application filed _____

Map filed MAY 28 1981

The applicant U.S. Government Ballistic Missile Office AFRCE-MX,
Norton Air Force Base of San Bernardino,
Street and No. or P.O. Box No. City or Town
California 92409, hereby make application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is Underground
Name of stream, lake or other source.

2. The amount of water applied for is 15.0 second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet _____ acre-feet

3. The water to be used for Quasi-Municipal
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated) _____

(b) Stockwater (state number and kinds of animals to be watered) _____

(c) Other use (describe fully under "No. 12. Remarks") X

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

5. The water is to be diverted from its source at the following point: NE1/4 SE1/4 Section 29, T.12S.
R.63E., M.D.M., from which the northwest corner of Section 29 T.12S.,
Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed land,
R.63E., bears N52° 59'W., 5054 feet.
it should be stated.

6. Place of use Coyote Spring and Kane Springs Valley; includes only
Describe by legal subdivision, if on unsurveyed land it should be so stated.
federally owned land within the following townships:
T.11S thru 14S., R.62E thru 64E., M.D.M., inclusive.

7. Use will begin about January 1 and end about December 31, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) diverted through pipes for construction purposes from a drilled well.
State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.

- 9. Estimated cost of works... Approximately \$250,000
- 10. Estimated time required to construct works... One (1) year
If well completed, describe works.
- 11. Estimated time required to complete the application to beneficial use... Two (2) years
- 12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

See Attachment A for explanation of total annual quantity of ground water requested for the basin and its intended use.

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....cubic feet per second.....

Actual construction work shall begin on or before.....

Proof of commencement of work shall be filed before.....

Work must be prosecuted with reasonable diligence and be completed on or before.....

Proof of completion of work shall be filed before.....

Application of water to beneficial use shall be made on or before.....

Proof of the application of water to beneficial use shall be filed on or before.....

Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed..... IN TESTIMONY WHEREOF, I.....
 Completion of work filed..... State Engineer of Nevada, have hereunto set my hand and the seal of
 Proof of beneficial use filed..... my office, this.....day of.....
 Cultural map filed.....
 Certificate No..... Issued..... A.D. 19.....

WITHDRAWN BY APPLICANT AUG 4 1983
 218 (Rev. 9-80)
Peter L. Morris
 STATE ENGINEER

State Engineer

The attached application for the appropriation of ground water is for the purpose of supplying water for the construction and operation of an operational base (OB) in Coyote Springs and Kane Spring valleys, for the MX Missile System. The quantity of ground water requested is 9685 acre-feet and it represents the entire annual amount to be appropriated from the ground-water basin for the OB.

During the construction phase, ground water will be used for road compaction, dust suppression, shelter construction, air-field construction, and the construction of miscellaneous assembly buildings and support facilities. The construction period is anticipated to be nine years beginning in 1982 and ending in 1990. Following construction, the operational ground-water use is expected to be about 4000 acre-feet per year. This water will be used primarily to supply support personnel housed at the base. Permanent population is expected to be about 18,000. This quantity of ground water will be required for the life span of the system which will be approximately 20 years.

There is one point of diversion with a total extraction rate of 15.0 cfs shown on the attached application. Ground water will be extracted and used throughout the operational base; total area of the base will range between about 6700 acres and about 7200 acres. It is expected that when operational base layout and designs have been finalized, a request will be filed to change the point of diversion into several strategic points of diversion that are in accord with aquifer capabilities, however, the total quantity of ground water requested would remain the same as the 9685 acre-feet indicated above.
