
Note:
Their subdivisions have been projected from the north and when Township is resurveyed (as a petition has been sent to G.L.O. for resurvey) there will be radical changes and private owned lands will probably be run out by metes and bounds.

I, H. H. Sheldon, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from the field notes of a survey made by me on the 23rd day of October 1927; that it truly and correctly represents the location and extent of the proposed works used to divert water from Upper Grassy springs in Washoe County by Mrs. Lena Harkey Scott for stock watering purposes. That the proposed point of diversion, the approximate location and size of the diverting channel or other conduit, the place and manner of use, and the location and names of all other works or streams which are crossed by, or connected with the said works, are fully and correctly designated thereon.

H. H. Sheldon
State Water Right Surveyor.

Subscribed and sworn to before me this 13 day of December, 1927

C. J. Mackay
Notary Public in and for Humboldt County, Nevada.
