Mr. Thomas Gallagher
Division of Water Resources
Capitol Complex
123 W. Nye Lane
Carson City, NV 89710

Dear Mr. Gallagher:

This letter is to inform you of the plugging of a hand dug well you and I discussed ~~by phone on Oct 29.~~ This well was dug in 1917. Location of the well is SW¼ of NW¼, Section 31, T34n, R55e. The work was done for the Dressi Ranching Co. located in Elko County..Notice of Intent card #17727.

My inspection of the well confirmed that the well was clean and dry with a depth of 22 feet and it was 7½ by 7½ feet square. Static water level in the area is appox. 35 feet.

On Nov 9 plugging started when I placed a 2 foot grout plug in the bottom of the well. On Nov 13 the rest of the well was filled to the surface with clean contruction fill..This completed the abandonment.

Thank you for your help in this matter.

Sincerely,

Anthony G. Logan
