Material	Water Strata	From	To	Thickness
This well was an old existing 2" pvc cased well to 20'. It appeared to have about a 5' sanitary seal and monument at ground level. This well has been dry for a period of time and we drilled a replacement well on intent #28995. Static level in the replacement well was 50'8". We abandoned the well by placing a mixture of neat cement from bottom to top.
