(9) The approximate number of animals watered by the ~~claimant~~ original user during the first year 1863 (Date), was 900 * cattle ..... horses ..... sheep or 50 deer (Other) ..... The watering was conducted during each of the following months cattle - June through October. Deer - yearlong.

(10) The approximate number of animals watered by the claimant in subsequent years was as follows:

900 cattle and approximately 300 deer currently use the water from Seyler Spring. Deer numbers have increased significantly since the 1800's.

If water was not used, or used in reduced quantity at any time, full information as to causes and duration of non-use should be given.

(11) The amount of water which has been necessary to be diverted for this purpose has been .025 ** cubic feet per second.

448.83 gal. per min. equals 1 cubic foot per second.

(12) The works are located at same as point of diversion.

Describe as being within a 40-acre subdivision, section, township and range of public survey. If on unsurveyed land, it should be stated.

Remarks * There were probably more cattle grazed, but at least 900 head were grazed by settlers who moved into the area in 1863. The use of this spring by livestock and deer has been continuous since that time. They have watered directly from the spring without need for development or diversion.

** This includes water used for consumption by and propagation of wildlife.

Remarks.....

The undersigned, being first duly sworn, deposes and says that the facts relative to the appropriation of water by United States of America - Forest Service are full and correct to the best of his knowledge and belief.

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant.
