Patented, deeded, public domain with grazing permit, etc.
relationship to base property on Mori Ranch.

36
EL

(8) The claimant's water right was (was not) recorded in the office of the County Recorder of

County, at Page of Book of

NOTE—Failure to record in the county in no way invalidates a water right, but if water right was so recorded, supply full information under (8).

(9) The approximate number of animals watered by the claimant during the first year 1895 (Date), was 100 cattle ..... horses ..... sheep or ..... (Other). The watering was conducted during each of the following months April through June

(10) The approximate number of animals watered by the claimant in subsequent years was as follows:

Approximately 100 cattle for the months of April, May and June.

If water was not used, or used in reduced quantity at any time, full information as to causes and duration of non-use should be given.

(11) The amount of water which has been necessary to be diverted for this purpose has been .05 cubic feet per second.

448.83 gal. per min. equals 1 cubic foot per second.

(12) The works are located at NW¼ of the NW¼ of Sec. 5, T39N R52E

Describe as being within a 40-acre subdivision, section, township and range of public survey. If on unsurveyed land, it should be stated.

Remarks This water pond is very important to the implementation of an allotment management plan as well as being vital to helping us get throught drought situations.

Remarks This grazing permit is tied to my base property which has water appropriations #D1187 and #01188. It is essential to remove cattle from base property to this range while hay is growing.

The undersigned, being first duly sworn, deposes and says that the facts relative to the appropriation of water by Nelo Mori are full and correct to the best of his knowledge and belief.

If proof is not made by claimant, deponent should state on this line by virtue of what authority he represents the claimant.
