(O)-2035

Attachment to Protests by Vidler Water Company, Inc.
of Applications 64794, 64795, and 64796

Protestant, as a co-applicant with Lincoln County has prior filings 64694 and 64695 for 20 cfs (approximately 14,480 acre feet per year) of water for municipal purposes from Basin #222 (Virgin River Valley). Protestant and its co-applicant, Lincoln County, propose to provide water for future growth of the Mesquite area within Lincoln County, and subject to approval by the State Engineer of Protestant's prior applications, stand ready, willing, and able to proceed immediately in the development of these resources.

Protestant is working in partnership with Lincoln County to produce and implement a valid, reasonable water plan for the entire county which will benefit all the citizens of Lincoln County and reflect the substance and spirit of Nevada Water Law. Protestant believes that granting the Applicant's junior filings would tend to interfere with said plan and would not be in the public interest.

Protestant realizes that the citizens of the State of Nevada own all the water of this state, but believes that, in light of current and recent controversies, and the word and spirit of Nevada Law and recent legislation, the county of origin has a valid basis to be recognized and favorably heard regarding the appropriation of water in its county, particularly when that county together with the Protestant is proposing to develop and supply water for the same need (Growth of the Mesquite Area) as the Applicant and is senior in time with its applications to do so.

To grant the subject applications would not be in the public interest.
