

APPLICATION FOR PERMIT

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office... OCT 3 1983

Returned to applicant for correction... OCT 13 1983

Corrected application filed.....

Map filed... DEC 8 1983

The applicant Cameron E. McKay, Registered Mining Engineer, Nevada 3399.

1260 Riverside Drive, of Reno,

Street and No. or P.O. Box No. City or Town

Nevada 89503, hereby make application for permission to appropriate the public

State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is underground
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 3,000 GPM 6.69 second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet No Reservoir

3. The water to be used for mining, milling & domestic
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:
(a) Irrigation, state number of acres to be irrigated:

(b) Stockwater, state number and kinds of animals to be watered:

(c) Other use (describe fully under "No. 12. Remarks" Placer Gold Mining

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream To Spring Valley Basin (infiltration through dredging pond.)

5. The water is to be diverted from its source at the following point: NE 1/4 SE 1/4 Sec 10, T14N R67E
Describe as being within a 40-acre subdivision of public MDB&M whence the southeast corner of said Section 10 bears S 30 E 2400 feet survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

6. Place of use portions of Sections 10, 11, 14 and 15 all in T.14N R67E MDB&M
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

A portion of Section 12, T. 14 N., R. 67 E., M.D.B.&M.

7. Use will begin about January 1 and end about December 31, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Deep Wells with Electric Driven Pumps
State manner in which water is to be diverted, i.e. diversion structure, ditches and via Pipeline to Various Points of Use
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$150,000.00

10. Estimated time required to construct works..... 24 Months to Construct Water Supply System

If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use..... Three Years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

One to Two Bucket-Line Gold Dredges with an Annual Capacity of 5 Million

Cubic Yards Each, Requiring 1,500 GPM of Sub-surface Well Water for each

Dredge. Water will be returned to water basin through perolation. Estimated consumption, i.e. loss through evaporation and process use is estimated at 0.20 cfs continuously, or 145 acre feet per year.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right, to regulate the use of the water granted herein at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 6.0 cubic feet per second, but not to exceed 145.0 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before July 31, 1986

Proof of completion of work shall be filed before August 31, 1986

Application of water to beneficial use shall be made on or before July 31, 1988

Proof of the application of water to beneficial use shall be filed on or before August 31, 1988

Map in support of proof of beneficial use shall be filed on or before

Completion of work filed..... IN TESTIMONY WHEREOF, I PETER G. MORROS, State Engineer of Nevada, have hereunto set my hand and the seal of

Proof of beneficial use filed..... my office, this 31st day of July
