APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the place of use of a portion of the waters of an underground source as heretofore granted under Permit 44862 is issued subject to the terms and conditions imposed in said Permit 44862 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of water herein granted at any and all times but does not take responsibility for the use of the Federal range.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal, and local agencies.

This permit is issued with the express understanding and on the condition that existing grazing use of the public range by authorized users or permittees will not be impaired or adversely affected by approval and issuance of this permit.

This permit and Permit 44862 shall be limited to sufficient water to water 110 head of cattle.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0023 cubic feet per second, or sufficient to water 110 head of cattle.

Work must be prosecuted with reasonable diligence and be completed on or before February 19, 1986

Proof of completion of work shall be filed before March 19, 1986

Application of water to beneficial use shall be made on or before February 19, 1988

Proof of the application of water to beneficial use shall be filed on or before March 19, 1988
