THE STATE OF NEVADA

PERMIT TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of applicant:	**TRIPLE TECH, LLC**
Source:	**UNDERGROUND**
Basin:	**PAHRUMP VALLEY**
Manner of Use:	**MUNICIPAL**
Period of Use:	**January 1st to December 31st**
Priority Date:	**04/18/1960**

****

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 23943, Certificate 7040 is issued subject to the terms and conditions imposed in said Permit 23943, Certificate 7040 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 73527, 73528 and 74029, having a comingled place of use shall not exceed 0.5765 cubic feet per second and 168.5 acre-feet annually.

The total combined duty of water under Permits 73527 and 74029, having the same point of diversion shall not exceed 0.3058 cubic feet per second and 89.5 acre-feet annually.

The total combined duty of water under Permits 41169, 72041, 73084, 73527, 74029, 74030, 74741, and 74932, having the same point of diversion, shall not exceed 2.669 cubic feet per second and 815.22 acre-feet annually for all purposes. Any use of water from this well for irrigation purposes shall be metered separately.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled, withdrawn, or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

Any dedication of water from this permit for a residential subdivision shall be allocated at 1.12 acre-feet per lot. The State Engineer may amend the per lot allocation based on evidence and data supporting such change.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.2708 cubic feet per second or 79.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:	**October 30, 2008**
Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:	**October 30, 2017**
Map in support of proof of beneficial use shall be filed on or before:	**N/A**

IN TESTIMONY WHEREOF, I, TRACY TAYLOR, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 30th day of **October**, A.D. **2007**

The applicant **Triple Tech, LLC** hereby makes application for permission to change the **Point of Diversion, Place of Use and Manner of Use of a portion** of water heretofore appropriated under **Permit 23943, Certificate 7040**

****

1. The source of water is **Underground**

2. The amount of water to be changed **0.27075 c.f.s., 79 AFA**

3. The water to be used for **Municipal**

4. The water heretofore permitted for **Irrigation**

5. The water is to be diverted at the following point **NE¼SE¼ Section 8, T.21 S., R.54 E., MDM, or at a point from which the NE corner of said Section 8 bears North 1°32' East, a distance of 2,705 feet, situated in Nye County, Nevada. (Pahrump Utility Company, Inc. Well #3)**

6. The existing permitted point of diversion is located within **NE¼NW¼ Section 21, T.19 S., R.53 E., MDM, or at a point from which the NE corner of said Section 21 bears North 88° 31' East, a distance of 2,709 feet, situated In Nye County, Nevada**

7. Proposed place of use **See attached**

8. Existing place of use **10.0 acres within the NE¼NW¼; 40.0 acres within the NW¼NW¼; 15.9 acres within the SW¼NW¼; 40.0 acres within the SE¼NW¼; and 31.6 acres within the SW¼NE¼ (40.0 acres less 8.4 acres previously stripped) Section 21, T. 19 S., R. 53 E., MDM. (15.8 acres within the SW¼NE¼ Section 21 to be removed from irrigation under this application – as shown on supporting map.)**

9. Use will be from **January 1** to **December 31** of each year.

10. Use was permitted from **January 1** to **December 31** of each year.

11. Description of proposed works **drilled well, pump, motor and water distribution system**

12. Estimated cost of works **in excess of $50,000**

13. Estimated time required to construct works **2 years**

14. Estimated time required to complete the application of water to beneficial use **10 years**

15. Remarks: **The water under this application and another application being filed concurrently will be transferred to Pahrump Utility Company, Inc. for the benefit of the "Tesora at Pahrump" development by Anchor Development, upon approval of the**

73527

annexation agreement by and between Pahrump Utility Company, Inc. and William G. Goff, Jr., Trustee. Please use P.B.U. map on file at the Division of Water Resources under Permit 23942 to support the existing point of diversion.
