-----APPROVAL-----OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance for pollution control. A time meter, a totalizing meter or other means of measuring the water pumped acceptable to the Division of Water Resources from the series of wells allowed under this permit must be installed and measurements submitted to this office on an annual basis. The well shall be equipped with a 2-inch opening for measuring depth to water. The State retains the right to regulate the use of water granted herein at any and all times. It is also understood that this right must allow for a reasonable lowering of the static water level.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.1 cubic feet per second.

Work must be prosecuted with reasonable diligence and be completed on or before December 13, 1987

Proof of completion of work shall be filed on or before January 13, 1988

Application of water to beneficial use shall be made on or before December 13, 1990

Proof of the application of water to beneficial use shall be filed on or before January 13, 1991
