S20-E61-35 NE SE

Dear Mr. Al Rushanan:

SECOR International Incorporated (*SECOR*) on behalf of its client, The Southland Corporation (Southland) is providing this well abandonment report. Well abandonment activities were conducted pursuant to Nevada Division of Environmental Protection (NDEP) correspondence dated June 2, 1998 which granted administrative closure of the site. *SECOR* submitted a workplan for closure activities that was approved by NDEP on February 17, 1998.

SECOR personnel supervised well abandonment of MW-2 through MW-10, and RW-1 through RW-5 (Figure 1) on October 1-2, 1998. Weber Drilling Services, a State of Nevada licensed driller, was contracted to abandon the wells. Each well was abandoned by removing the well casings. The well cover and concrete well pads were chipped out. Debris from the wells were disposed of in an on-site dumpster. The wells were then grouted and topped with cement. The boreholes were filled in with cement to match the parking lot surface and sealed.

An *Intent to Drill Card* and *Well Drillers Reports* were submitted to the Nevada Division of Water Resources by the driller.

Could not locate well log. This correspondence used as report of well abandonment.

If you have any questions regarding this matter, please contact the undersigned at (702) 798-3911.

Sincerely,

***SECOR* International Incorporated**

ENVIRONMENTAL CERTIFICATION JURAT

This Well Abandonment Report for 7-Eleven Store No. 20379, located at 2416 East Stewart in Las Vegas, Nevada has been prepared in accordance with Nevada Administrative Code (NAC), Chapter 459, Section 9717.

I hereby certify that I am responsible for the services described in this document and for the preparation of this document. The services described in this document have been provided in a manner consistent with the current standards of the profession and to the best of my knowledge comply with all applicable Federal, State and local statutes, regulations and ordinances. As a full-time employee of *SECOR*, my responsibilities for this project have been to devise the strategic approach, provide guidance and directly supervise the staff of our Las Vegas office with respect to assessment and remediation efforts. I have performed a technical review of this report, which has been prepared by the *SECOR* staff of our Las Vegas office.
