

AMENDED

Nº 50123

AMENDED APPLICATION FOR PERMIT

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office AUG-25-1986 - NEW PRIORITY DATE: DEC 13 1993
Returned to applicant for correction SEP 23 1986
Corrected application filed NOV 24 1986
Map filed NOV 24 1986 under 50122

The applicant Alhambra Mines, Incorporated

255 Glendale Avenue, Unit #13, of Sparks, Nevada 89431
Street and No. or P.O. Box No. City or Town State and Zip Code No.

hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

January 3, 1978, Delaware

1. The source of the proposed appropriation is Underground
Name of stream, lake, spring, underground or other source.

2. The amount of water applied for is 0.33 c.f.s. second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.

3. The water to be used for Mine Dewatering, Mining, Milling, and Domestic
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated.

(b) Stockwater, state number and kinds of animals to be watered.

(c) Other use (describe fully under "No. 12. Remarks")

(d) Power:

(1) Horsepower developed.

(2) Point of return of water to stream.

5. The water is to be diverted from its source at the following point SE 1/4 SW 1/4 Section 23, T.17N., R.21E., M.D.B. & M., or at a point from which the SE corner of said survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated. Section 23 bears S.69°46'02"E., 3016 feet.

6. Place of use S 1/2 NE 1/4 SW 1/4, SE 1/4 SW 1/4, S 1/2 N 1/2 SE 1/4, S 1/2 SE 1/4 Section 23, T.17N., R.21E., M.D.B. & M., as shown on the supporting map.

7. Use will begin about January 1 and end about December 31, of each year.

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Drilled well, pump, and transmission line

9. Estimated cost of works \$10,000

10. Estimated time required to construct works One year
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use Two years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use. Annual consumptive use 78.8 mga. Total combined annual duty under this Permit and Permits 50122 and 50124 not to exceed 78.8 mga. Water produced by mine dewatering well will be used for mining, milling, and domestic purposes within the Place of Use. Perimeter dewatering wells are required for more efficient open pit mining, and for safety purposes resulting from more stable slopes. Any water pumped for dewatering in excess of amount necessary for mining and milling will be reinjected to the groundwater system, undiminished in quality.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.
(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.33 cubic feet per second, but not to exceed 78.8 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before July 10, 1989

Proof of completion of work shall be filed on or before August 10, 1989

Application of water to beneficial use shall be made on or before July 10, 1992

Proof of the application of water to beneficial use shall be filed on or before August 10, 1992

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed NOV 8 1990 IN TESTIMONY WHEREOF, I PETER G. MORROS

(PERMIT TERMS CONTINUED)

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

The total combined duty of water under Permits 50123 and 50124 shall not exceed 78.8 million gallons annually.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

This permit is issued subject to the terms and conditions of the State Engineer's oral ruling issued at the June 30, 1987 hearing.
