

AMENDED

Nº 50221

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office OCT 2 1986
Returned to applicant for correction JAN 12 1987
Corrected application filed FEB 10 1987
Map filed MAR 12 1987 under 50191

The applicant WASHOE COUNTY
P.O. BOX 11130, of RENO
NEVADA 89520, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated.

(If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

- 1. The source of the proposed appropriation is Underground
2. The amount of water applied for is 5.0 second-feet
3. The water to be used for Quasi-Municipal
4. If use is for: (a) Irrigation, state number of acres to be irrigated n/a
5. The water is to be diverted from its source at the following point DUCK LAKE VALLEY - NE 1/4 NE 1/4
6. Place of use Washoe County as described in NRS 243.340 et seq.
7. Use will begin about January 1 and end about December 31, of each year.
8. Description of proposed works: (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Drilled well, equipped with pump and motor, pipelines, pumping stations, and storage reservoirs.
9. Estimated cost of works \$150,000,000.00

10. Estimated time required to construct works..... 20 years
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use..... 30 years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use. This application and any others filed in this basin by Washoe County are to appropriate all of the unappropriated groundwater. The diversion is anticipated to exceed the perennial yield of the basin for limited periods of time. This limited duration over-pumpage will provide a supplemental supply of water to augment the quasi-municipal use of surface water during droughts or other short-term emergencies and to fill reservoirs. The 20-year average consumptive use will not exceed the perennial yield of the groundwater basin. To allow the basin to replenish its storage by natural means, the normal (non-drought period) consumptive sue will be about 80 to 90 percent of the estimated perennial yield. This water will be commingled with other waters appropriated by Washoe County to serve a county-wide population of 500,000 by the year 2030.

..... DENIAL OF STATE ENGINEER

deny

This is to certify that I have examined the foregoing application, and do hereby ~~grant~~ deny the same, subject to the following limitations and conditions:

This application is hereby denied on the grounds that it would be detrimental to the public interest to grant permits for a project the applicant no longer considers a viable source for municipal supply and for which the applicant has no definite plans formulated pursuant to which the waters would be put to beneficial use.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... cubic feet per second.....

Work must be prosecuted with reasonable diligence and be completed on or before.....

Proof of completion of work shall be filed on or before.....

Application of water to beneficial use shall be made on or before.....

Proof of the application of water to beneficial use shall be filed on or before.....

Map in support of proof of beneficial use shall be filed on or before.....

Completion of work filed.....

Proof of beneficial use filed.....

Cultural map filed.....

Certificate No..... Issued.....

IN TESTIMONY WHEREOF, I, R. Michael Turnipseed, P.E. State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 26th day of January

A.D. 1998
