One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for Municipal and Domestic purposes
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated.....

(b) Stockwater, state number and kinds of animals to be watered.....

(c) Other use (describe fully under "No. 12. Remarks" See Remarks

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point See Exhibit 'A' Map on
Describe as being within a 40-acre subdivision of public
file under Application No. 49886.
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

6. Place of use Sierra's water service area as approved by the Public
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
Service Commsision. A current map and legal description of Sierra's
water service area is on file at the State Engineer's Office.

7. Use will begin about January 1st and end about December 31st, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or storage works.) Water will be diverted at existing
State manner in which water is to be diverted, i.e. diversion structure, ditches and
treatment facilities, treated, and placed into Sierra's distribution
flumes, drilled well with pump and motor, etc. system.

9. Estimated cost of works Diversion, treatment and distribution facilities
already exist.

10. Estimated time required to construct works existing works
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use five years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

(Question 1) The intent of this application is to divert an amount equal to the increase in return flow to the Truckee River resulting from Truckee Meadows groundwater being used in Sierra's system.
