State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) Fred Porteous, Brien B. Walters

1. The source of the proposed appropriation is Underground (Basin #73 in Pershing and Churchill Counties)  
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 6 second-feet  
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for Municipal  
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated.....

(b) Stockwater, state number and kinds of animals to be watered.....

(c) Other use (describe fully under "No. 12. Remarks"..... \*

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point NW<sup>4</sup>NW<sup>4</sup> sec. 12, T25NR31E, MDB  
Describe as being within a 40-acre subdivision of public  
& M, at a point from which the W<sup>1/4</sup> cor. of said section 12 bears  
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.  
S45°W a distance of 600 Ft. (Well #9 - Big 5) MAP TO FOLLOW

6. Place of use see page 2  
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about January 1st and end about December 31st, of each year.  
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Deepwell, lineshaft, turbine pump and ancillary works, and gathering and transmission system including line booster.  
State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$7,500,000

10. Estimated time required to construct works. Approximately 4 years following issuance  
If well completed, describe works.  
of permits. \_\_\_\_\_

11. Estimated time required to complete the application of water to beneficial use. Approximately 5 years  
following project completion, or total of 9 years following the issuance of permits.

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

## Item 6:

Place of use T15NR19E, T15NR20E (Carson City, Eagle Valley); T16NR19E, T16NR20E (Washoe Valley); T17NR19E (Slide Mt., N. Washoe Valley); T17NR20E (Portion N. Washoe Valley); T18NR19E (Whites, Thomas, Dry & Evans Creek Fans); T18NR20E (S. Truckee Meadows); T19NR18E (Verdi, Mogul, Lawton Areas); T19NR19E (Reno); T19NR20E (Reno, Sparks); T20NR19E (N. Reno, Black Springs, Golden Valley); T20NR20E (N. Sparks, Sun Valley, S. Spanish Springs Valley); T21NR18E (Cold Springs Valley, W. Lemmon Valley); T21NR19E (Lemmon Valley, Stead); T21NR20E (S. Hungry Valley, N. Spanish Springs Valley). Map to Follow

## Item 12:

Remarks: Water applied for herewith will be commingled with water from 9 other concurrent basin #73 applications, & subsequent applications in Nevada. Water treatment may be required, & extensive groundwater hydrology & test drilling by GHC is anticipated to confirm source suitability & to insure proposed beneficial use will not damage others. Direct pipeline transmission to the Washoe Front is anticipated with exchange options on the lower Carson-Truckee System possible-subject to drought year water being available up-stream, in-stream beneficial uses, & TCID. Total project cost will be in the order of \$75,000,000 for annual consumptive use of 20,000 AF. All applications are on BLM land & use permits are in progress.
