

AMENDED APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office MAY 14 1987
Returned to applicant for correction JUN 29 1987
Corrected application filed AUG 13 1987
Map filed AUG 13 1987

The applicant Robert L. Helms Construction and Development Company
790 Lincoln Way of Sparks
Nevada 89431

hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) Nevada - 1962

1. The source of the proposed appropriation is underground
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 0.10 cfs second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet

3. The water to be used for commercial and domestic
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated

(b) Stockwater, state number and kinds of animals to be watered

(c) Other use (describe fully under "No. 12. Remarks")

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream

5. The water is to be diverted from its source at the following point SE 1/4 SW 1/4 Section 27, T20N, R22E,
Describe as being within a 40-acre subdivision of public

MDM at a point from which the W 1/4 corner of Section 34, T20N, R22E, MDM bears
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
S38°37'49"W, 4248.99'

6. Place of use Portions of the S 1/4 S 1/4 Section 27, T20N, R22E, MDM
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) existing well to be re-equipped with submersible
State manner in which water is to be diverted, i.e. diversion structure, ditches and
motor and pump with PVC pipeline to office trailer and shop.
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$2,000 for flowmeter and pipelines

10. Estimated time required to construct works. one year to install flowmeter and pipeline to existing well
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use. two years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

It is anticipated that water will be provided to an office trailer equipped with two bathrooms and a kitchen facility, as well as a maintenance shop equipped with two bathrooms. There will be no outside irrigation; therefore, the estimated consumptive use is expected to be 2.02 acre feet per year.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

No perforations shall be put in the production casing from ground level to 100 feet.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.10 cubic feet per second, but not to exceed 0.657 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before February 22, 1989

Proof of completion of work shall be filed on or before March 22, 1989

Application of water to beneficial use shall be made on or before February 22, 1991

Proof of the application of water to beneficial use shall be filed on or before March 22, 1991

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed MAR 16 1989 IN TESTIMONY WHEREOF, I PETER G. MORROS

Proof of beneficial use filed APR 05 1993 State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 22nd day of February

Certificate No. 14161 Issued JUL 12 1995
By: ROLAND WESTERGARD DIRECTOR State Engineer

(PERMIT TERMS CONTINUED)

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.
