

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office. JUN 17 1987

Returned to applicant for correction _____

Corrected application filed _____ Map filed SEP 01 1987 under 51029

The applicant Oxbow Geothermal Corporation

200 S. Virginia St., Suite 450 of Reno
Street and No. or P.O. Box No. City or Town

Nevada 89501 hereby make S. application for permission to change the
State and Zip Code No.

point of diversion and place of use
Point of diversion, manner of use, and/or place of use

of water heretofore appropriated under Permit #43051
(Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

1. The source of water is Dixie Valley Geothermal Reservoir (underground)
Name of stream, lake, underground spring or other source.

2. The amount of water to be changed 3.25 cfs, 235 ac/ft annually
Second feet, acre feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for Industrial
Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.

4. The water heretofore permitted for Industrial
Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.

5. The water is to be diverted at the following point SE 1/4 NE 1/4 SECTION 7, T24N, R37E, M.D.M. OR AT
Describe as being within a 40-acre subdivision of public survey and by course and distance to a section corner. If on unsurveyed land, it should be stated.
A POINT FROM WHICH THE SW CORNER OF SAID SECTION BEARS S 46° 08' 11" W 5585.09
FEET.

6. The existing permitted point of diversion is located within NW 1/4 NW 1/4 SECTION 18, T24N., R37E, M.D.M.
If point of diversion is not changed, do not answer.
OR AT A POINT FROM WHICH THE NE CORNER OF SECTION 6, T24N, R37E, M.D.M. BEARS
N 22° 59' 43" E 12,690.1 FEET.

7. Proposed place of use NE 1/4 of Section 7, T24N, R37E MDB&M
Describe by legal subdivisions. If for irrigation state number of acres to be irrigated.

8. Existing place of use Section 32, T25N R37E; Sections 5, 6, 7, 8, 17, 18, 19, 20, 21,
Describe by legal subdivisions. If permit is for irrigation, state number of acres irrigated. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.
4, T24N R37E; Sections 12, 13, 24 T24N R36E, MDM

9. Use will be from January 1 to December 31 of each year.
Month and Day Month and Day

10. Use was permitted from January 1 to December 31 of each year.
Month and Day Month and Day

11. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) geothermal well with piping to power plant
State manner in which water is to be diverted, i.e. diversion structure, ditches, pipes and flumes, or drilled well, etc.

12. Estimated cost of works \$3 million

13. Estimated time required to construct works completed-see attached well diagram

14. Estimated time required to complete the application of water to beneficial use 3 years

15. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Well will join with 5 others to generate 50MW of electric power. Plant will require 1875 cf/min. (31.25 cfs) and consume 6028 ac/ft annually. Remainder of consumptive use for this well will come from the 10,704 ac/ft allowed collectively for the project.

Protested _____

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 43051 is issued subject to the terms and conditions imposed in said Permit 43051 and with the understanding that no other rights on the source will be affected by the change proposed herein.

This permit is issued subject to existing rights. It is understood that the amount of geothermal fluid herein granted is only a temporary allowance and that the final right obtained under this permit will be dependent upon the amount actually placed to beneficial use. It is also understood that this right must allow for a reasonable decrease of fluid pressure and heat. The well shall be equipped and maintained to prevent any waste of the geothermal fluid. Accurate measurements must be kept of discharge of the production well and the amount of fluid injected into the injection well to determine the total amount of fluid diverted and consumed for a beneficial use.

The production and injection well are to be cemented from the producing levels to the surface to protect fresh water zones. This permit is issued subject to the condition that only geothermal fluids are to be diverted and used beneficially for heating purposes and fresh, cold water aquifers are not to be diverted. The used geothermal fluids are to be returned to the source via the injection well. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. A detailed log on the injection well and/or other analyses of the system used for returning the used geothermal fluids to the source must be submitted together with the Proof of Completion.

(CONTINUED ON PAGE 2)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 3.25 cubic feet per second, but not to exceed a consumptive use of 235 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before NOVEMBER 21, 1988

Proof of completion of work shall be filed before DECEMBER 21, 1988

Application of water to beneficial use shall be made on or before NOVEMBER 21, 1990

Proof of the application of water to beneficial use shall be filed on or before DECEMBER 21, 1990

Map in support of proof of beneficial use shall be filed on or before _____

Completion of work filed DEC 23 1988

Proof of beneficial use filed 5-26-89

Cultural map filed _____

Certificate No. 12914 Issued JUL 26 1991

IN TESTIMONY WHEREOF, I PETER G. MORROS, State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 13th day of MAY

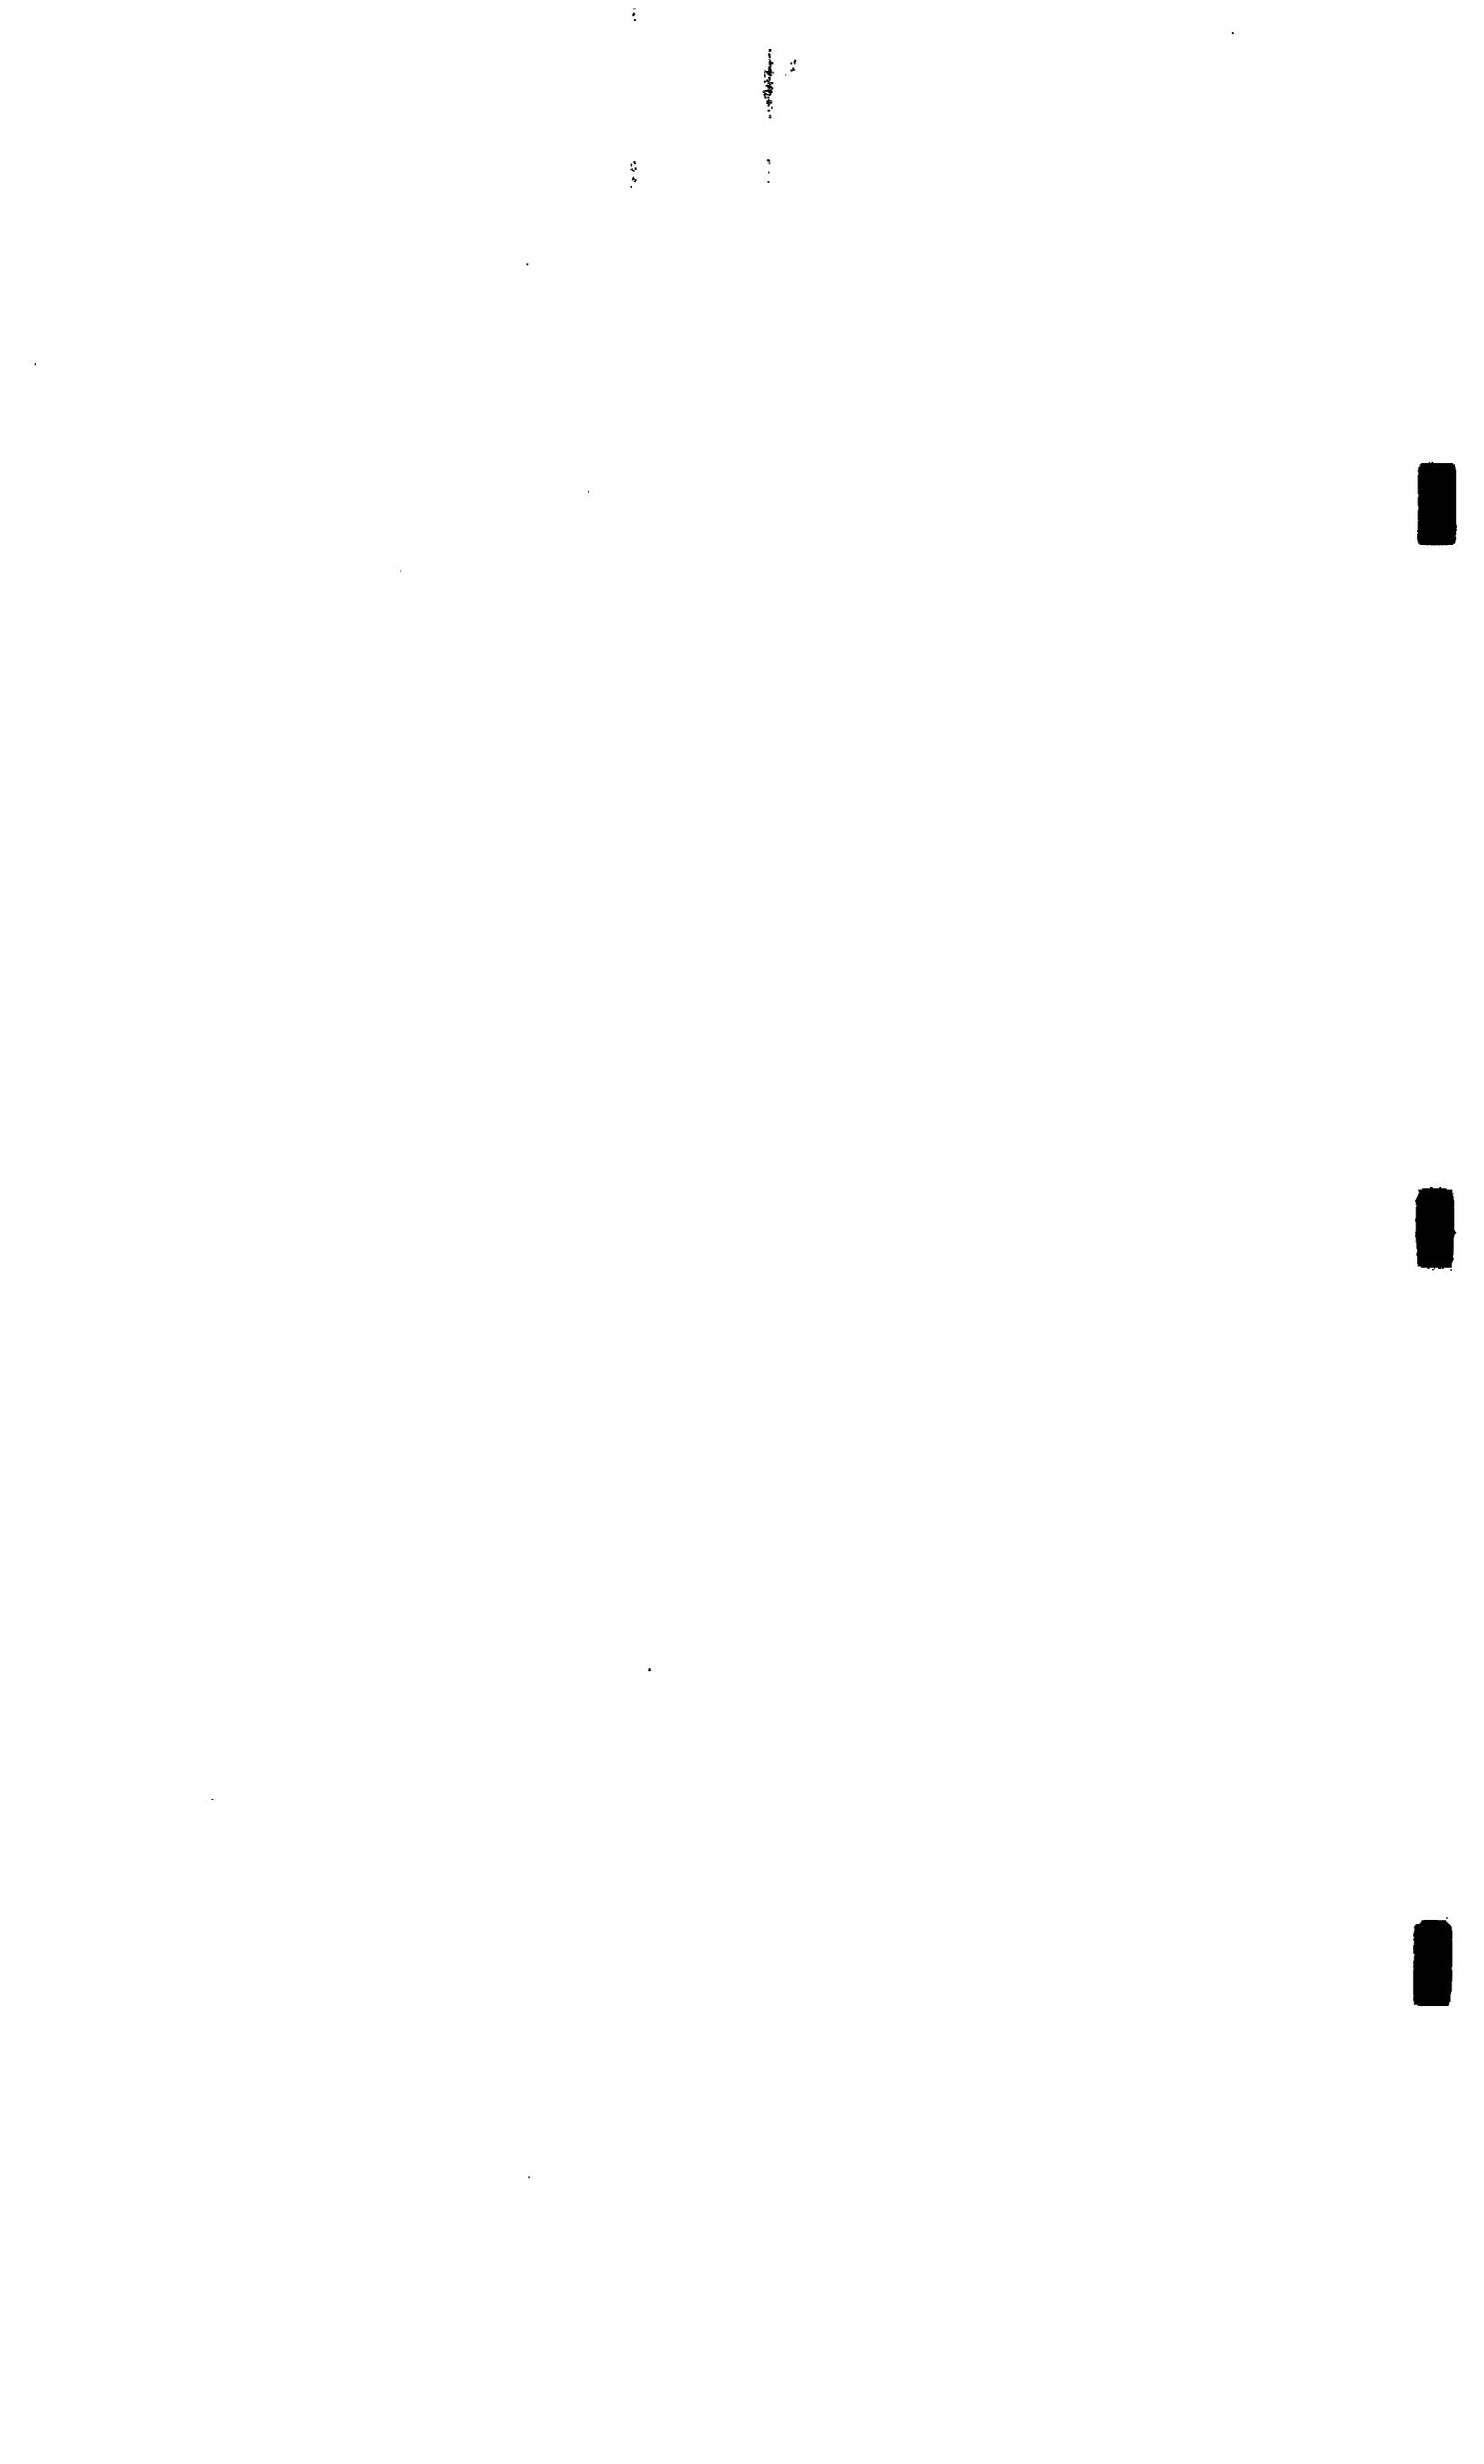

A.D. 19 88

Peter G. Morros
State Engineer

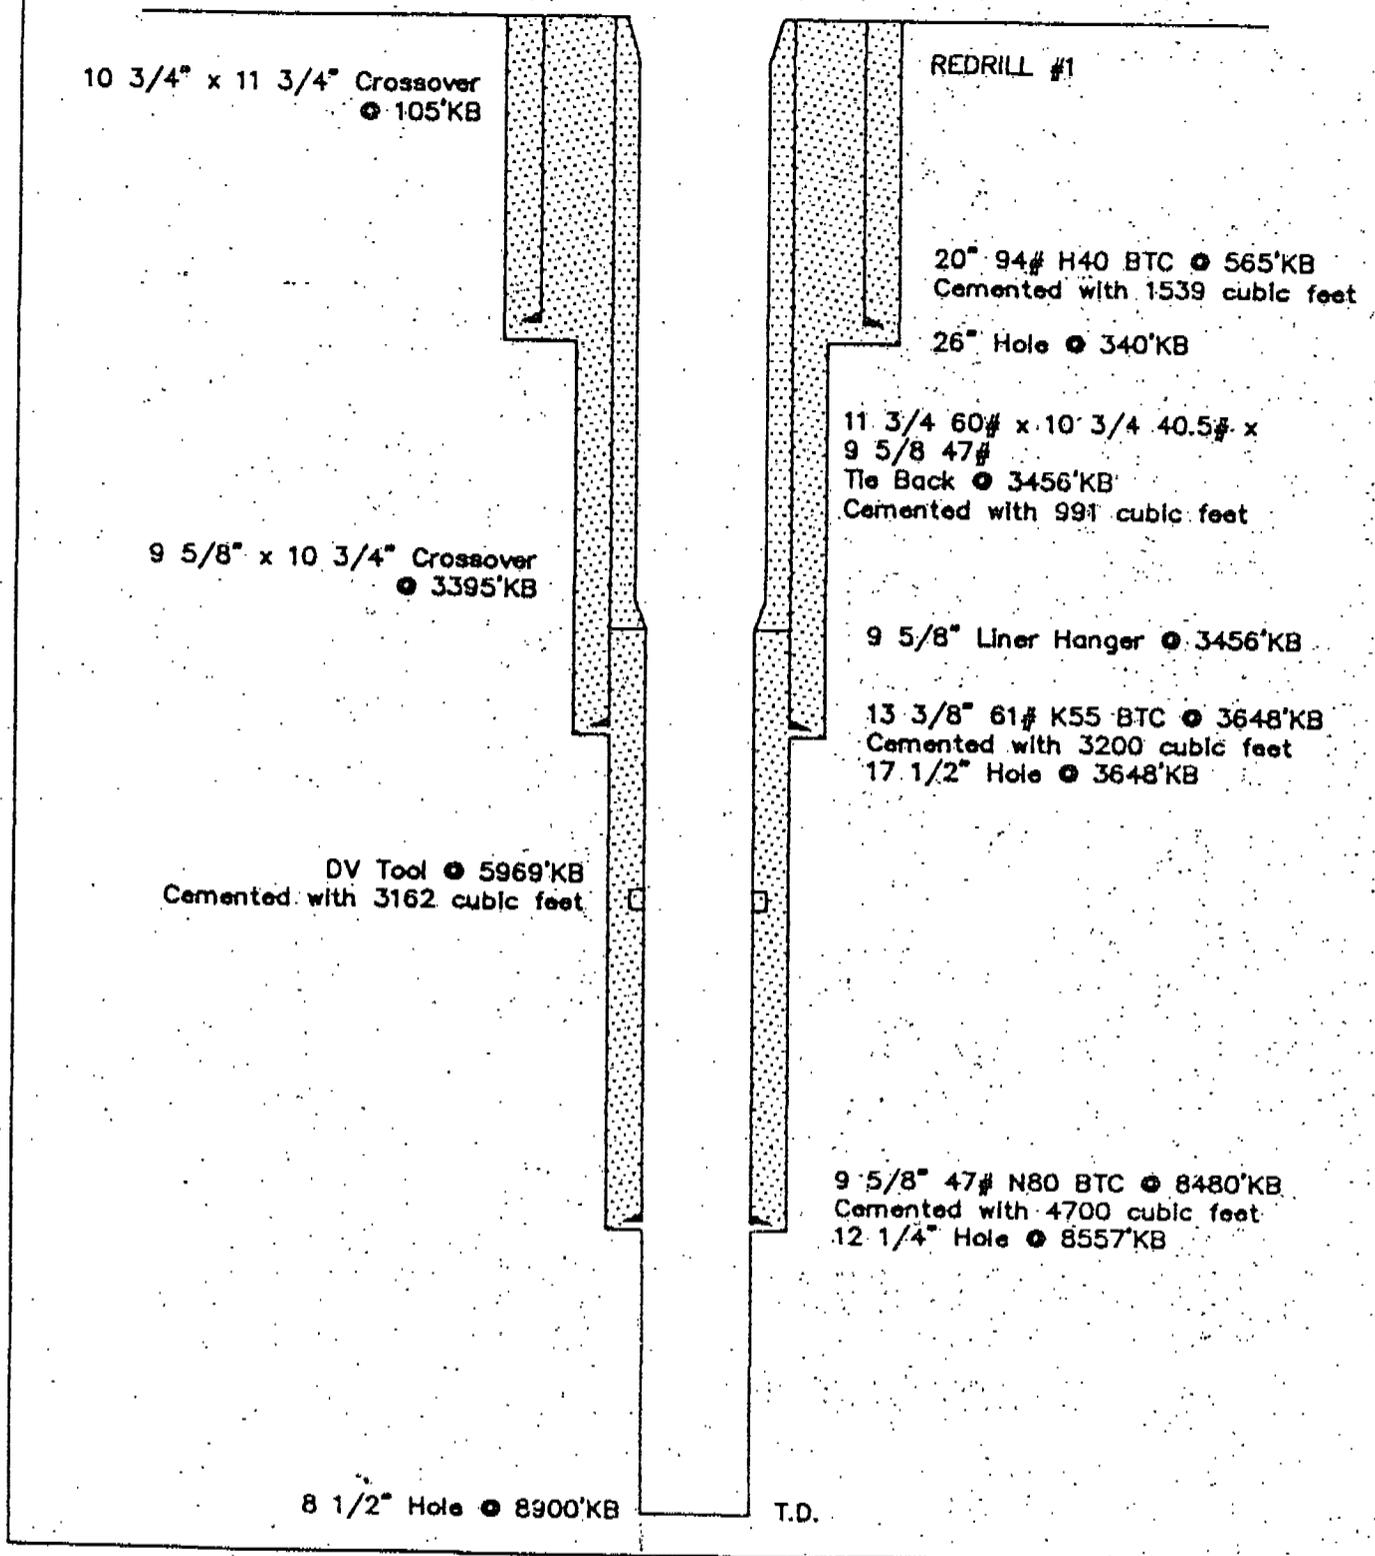

Permit Terms Continued

An annual report for this well must be filed under this permit describing the amount of geothermal fluid diverted and consumed to a beneficial use for the calendar year. This report must detail the amount of fluid produced and injected.

The total withdrawal of the geothermal fluid shall be limited to 2353 acre-feet per year but the total combined consumptive use of the geothermal fluid under Permits 41892, 41920, 41929, 43050, 43052, 46951, 47142, 47322, 47323, 48932, 48933, 48934, 48935, 49572, 49573, 49574, 49644, 49802, 49803, 51029, 51030, 51031, 51032, 51033, 51034, 51035 and 51036 shall not exceed 10,704 acre-feet annually. The State Engineer does not waive the right to make a determination of consumptive use at any time and impose additional conditions thereto. This permit is further issued subject to the provisions of NRS 533.372(1) and with the understanding that the power or energy generated by the beneficial use of this water or steam is subject to recapture and use within the boundaries of the State of Nevada when the need arises.
