Re. Norman D. Glaser well abandonment

The 4" ~~well~~ 29737 was grouted from 20 foot depth to the ground surface with 2" inch trimming using neat cement. The 5' foot 29738 culvert was plugged with 3' ft of concrete from a depth of 12' ft to 9' ft, 9' ft depth to 2' ft depth was filled with native clay, 2' ft to 1' ft above the ground surface was concrete. Concrete was 9 sack per yard.

Sincerely,

Ray D. Reynolds
