Corrected application filed _____

Map filed JUN 20 1988

The applicant Ted L. and Zelpha E. Hodge

9815 Dixon Lane, of Reno,
Street and No. or P.O. Box No. City or Town

Nevada, hereby make application for permission to appropriate the public
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

Charles E. and Margi Miller

1. The source of the proposed appropriation is underground
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 1.0 second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet _____

3. The water to be used for Quasi-Municipal and Domestic
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated _____

(b) Stockwater, state number and kinds of animals to be watered _____

(c) Other use (describe fully under "No. 12. Remarks") _____

(d) Power:

(1) Horsepower developed _____

(2) Point of return of water to stream _____

5. The water is to be diverted from its source at the following point being within the NE 1/4 SW 1/4 of Section
Describe as being within a 40-acre subdivision of public

22, T19N, R28, M.D.M. or at a point from which the SW corner of said section 22 bears
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

S. 31° 43' 40" W. a distance of 3053.00 feet.

6. Place of use portions of the SE 1/4 NE 1/4, SW 1/4 NE 1/4, NE 1/4 SE 1/4, SE 1/4 SE 1/4 of section 21, T19N,
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

R28E, M.D.M., NW 1/4 SW 1/4, NE 1/4 SW 1/4, SE 1/4 SW 1/4 and portions of the SW 1/4 SW 1/4, SE 1/4

NW 1/4 of section 22, T19N, R28E, M.D.M., portions of the NW 1/4 NW 1/4 NE 1/4 NW 1/4 of section

27, T19N, R28E, M.D.M.

7. Use will begin about January 1 and end about December 31, of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) well, pumps, storage, transmission mains.

State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$50,000.00

10. Estimated time required to construct works.....two years.....
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use.....five years.....

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

A planned unit residential developmnt of approximately 800 units.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second, but not to exceed 108 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before April 30, 1993

Proof of completion of work shall be filed on or before May 30, 1993

Application of water to beneficial use shall be made on or before April 30, 1996

Proof of the application of water to beneficial use shall be filed on or before May 30, 1996

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed IN TESTIMONY WHEREOF, I R. MICHAEL TURNIPSEED, P.E.
State Engineer of Nevada, have hereunto set my hand and the seal of my

STATE ENGINEER

(PERMIT TERMS CONTINUED)

This permit is issued under the provisions of NRS 534.120(2) as a preferred use. The total combined duty of water under Permits 52101 and 52102 shall not exceed 108 acre-feet annually.

Any well drilled under this permit shall be drilled in what has been described in the United States Geological Survey Water Supply Paper 2263 as the intermediate alluvial aquifer. Prior to the placement of any casing, the well log shall be submitted to the State Engineer for approval as to the placement of the perforations and the surface seal.

Any water system placed within the place of use of this permit is recommended to be to the standard acceptable to any local governmental agency in the event the water system becomes part of a larger regional system.

The amount of water granted under this permit shall be for inside water use only. Any surface water that is appurtenant to the place of use of this permit shall remain for outside water use.

This permit is issued for a total of 324 single family dwelling units at 300 gallons per day for inside use.
