

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office SEP 9 1988
Returned to applicant for correction OCT 24 1988
Corrected application filed DEC 1 1988
Map filed DEC 6 1988

The applicant Southern Pacific Pipe Lines, Inc. (SPPL)
888 South Figueroa St. of Los Angeles
California, 90017 hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) incorporated 2/18/55 in Delaware. Nevada qualification 1/9/56

1. The source of the proposed appropriation is Underground water
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 0.22 second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet

3. The water to be used for environmental control
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated

(b) Stockwater, state number and kinds of animals to be watered

(c) Other use (describe fully under "No. 12. Remarks") extraction of hydrocarbons

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream

5. The water is to be diverted from its source at the following points from which the NW corner of Section 9 bears N 60°50'39" W 2567.70 feet from well No.1 Describe as being within a 40-acre subdivision of public (M-5), and from which the NW corner of Section 9 bears N 62°06'51" W 2753.27 feet survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated. from well No.2(M-7), and from which the NW corner of Section 9 bears N 65°25'45" W 2684.83 feet from well No.3(M-8), T. 19 N, R 20 E., M D B & M

6. Place of use Water mixed hydrocarbon product will be treated by an oily-water separator in NE¼ NW¼, Section 9, T. 19N, R. 20E, and after treatment water will be discharged into sewer.

7. Use will begin about January 1 and end about December 31, of each year.

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) water to be diverted by drilled wells with pump and motor.

9. Estimated cost of works \$ 80,000

10. Estimated time required to construct works..... 120 days  
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use..... 1 years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

No consumptive use. Water to be diverted for environmental control: extraction of hydrocarbons. Water mixed with hydrocarbon product will be pumped from wells, treated by an oily-water separator at SPPL's Reno Terminal near the point of diversion, and post-treated water will be discharged to the City of Sparks sewer system. This is in compliance with NDEP Order dated 12/4/87.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance for pollution control as mandated by orders issued by the Nevada Division of Environmental Protection and subsequent correspondence with said agency. The right will cease to exist upon termination of clean up activity as determined by the Nevada Division of Environmental Protection. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and records of this measurement shall be submitted on an annual basis. It is also understood that this right must allow for a reasonable lowering of the static water level of permittee's well due to other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of water granted herein at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.22 cubic feet per second, but not to exceed 51.8 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before July 6, 1990

Proof of completion of work shall be filed on or before August 6, 1990

Application of water to beneficial use shall be made on or before July 6, 1991

Proof of the application of water to beneficial use shall be filed on or before August 6, 1991

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed OCT 1 1990 IN TESTIMONY WHEREOF, I PETER G. MORROS

State Engineer of Nevada, have hereunto set my hand and the seal of my

Proof of beneficial use filed office, this 6th day of July
